DANSK-DIGITAL LEARN DANISH QUICKLY AND EFFICIENTLY

DANSK-DIGITAL is a flexible online course for students who wish to take the Danish Language Education Level 3 program where and when it suits them.

Each week you will receive:

- Online lessons which can be completed at any time before the following class
- Written feedback on your assignments
- The opportunity to practice your oral skills via Microsoft Teams/Google Meet

Your teacher will follow your progress closely and will provide feedback on all assignments. This will be in addition to hosting a weekly online session so you can practice your vocabulary and pronunciation.

Module tests and the final exam (Prøve i Dansk 3) will take place at the language center at which you have enrolled.

STRUCTURE:

DANSK-DIGITAL offers all Danish Language Education Level 3 modules including Prøve i Dansk 3 (module 5).

To pass modules 1-4 you will be required to take a test, and to pass module 5 you will need to sit the official final examination (which will take place at your chosen language center).

REQUIREMENTS:

You can expect a minimum workload of approx. 6 hours per week.

In order to participate in classes a computer, headset and stable internet connection are required.

Please note the course requires active participation. If a student does not participate for two weeks in a row, they will be removed from the course.
